

Sept. 1935 No 10.

Even in the Blistering Drouth of 1934, 6 out of every 10 Farms under our supervision showed a substantial increase in CASH INCOME to the landowner!

Why do YOU delay? Why not have these profits for yourself, too?

A Few Examples of Farm Service Company Profits for Landowners:

THE ALCORN RIVER FARM

Osage county, Oklahoma; 160 acres, Arkansas River bottom, solid Johnson grass. We took charge in 1932 and under our supervision this farm paid the owner \$192.75 in 1932, compared to nothing at all the year before; \$170.63 in 1933; \$354.50 (an increase of more than 100 percent in the worst drouth in history) in 1934.

THE PAUL LAMBERT FARM

Kay county, Oklahoma; 216 acres, sandy upland; in 1932 this farm paid the owner \$162.17; we took charge in 1933 and increased the rental to \$313.62, and the second year of our management, 1934, increased to \$410.55.

THE HURST FARM

Grady County, Oklahoma; 170 acres, partly creek bottom; took charge in September, 1933, \$314.05 rental; first year of our management (1934 drouth) increased the rental to \$503.88.

THE JUDGE S. W. HAYES FARM

Grady county, Oklahoma; 150 acres, average upland; took charge in September, 1933, \$158 rental; 1934 (drouth) \$192.45 rental.

THE WHALEN DRISKILL FARM

Grady county, Oklahoma; 300 acres, partly creek bottom; took charge in September, 1933, \$345.38 rental; 1934 (drouth) \$587.63 rental.

THE MEE FARM

Noble county, Oklahoma; 160 acres, upland; took charge in November, 1933, \$278.45 rental; 1934 (drouth) \$349.77.

THE FARM SERVICE COMPANY provides complete farm management for landowners, freeing you of all worry and responsibility. This service includes securing the best type of tenant, soil analysis, designation of crops best suited for most profitable production on each area of the farm; direction and supervision of buildings and other maintenance and improvement; skilled guidance in profitable cultivation, harvesting and marketing of all crops, together with proper rental collection and remittance. Our service, backed by graduate agricultural knowledge plus many years of broad experience with all types of farms can be made to stop the depreciation of your land, bring about its improvement in productivity and re-sale value, with increase in yearly cash income to you. What we are doing for other landowners, we can do for YOU. Write for details today, giving description, location, etc., of your farm properties. We will investigate promptly and submit our proposition. To assure getting these benefits for yourself next year, write NOW.

THE FARLEY FARM

Grady county, Oklahoma; 80 acres, partly river bottom, overflow land; took charge in September, 1933, \$73.61 rental; 1934 (drouth) \$106.45.

THE T. T. EASON LIVESTOCK FARM

Garvin county, Oklahoma; 790 acres, 400 acres Rush Creek bottom badly infested with Johnson grass; lost money in 1933; we took charge in March, 1934, and collected and remitted to the owner the nice sum of \$2457.78 from 1934 crops and livestock.

You, Too, Can Be Free of Farm Worries

YOU, too, can enjoy the pleasure of seeing skilled, scientific, practical, business-like management stop the wasting of your valuable farm lands, secure good tenants, increase re-sale value, INCREASE CASH INCOME — make land-owning a business, a pleasure and a profitable investment for YOU. But to get the benefits these and other landowners are enjoying through our services (names of other clients gladly furnished on request) you must write, wire or phone us NOW, for NOW is the time to make profitable plans, if you want to make more money out of your farms next year!
