WE'RE BRINGING YOU MORE LIGHT . . .

on the subject of INCREASED FARM PROFITS.

We know this plan will increase the rental income from your farm, because we are on the job looking after your farm interests.

Our own experience for the year 1937 showed that we visited the farms under our full management on an average of once every five weeks. It also showed that our tenants visited our office on an average of once a month, and that we reported to our landlords on an average of eight times during the year. This will indicate to you that we are really on the job.

This full supervision is the reason for the results that we are able to secure.

If you would have this light of profitable tenant farm management thrown on your farm for 1939, use the enclosed business reply card TODAY.

Yours very truly,

FARM SERVICE COMPANY
